Tell me who you see, when you look in my eyes
Yeah, it's really me that you don't recognize.

I almost believed you
And gave up when you wrote me off.
You almost succeeded completely...
'Til somehow I rescued the faith that I lost.

CHORUS:

What'cha gonna say, what'cha gonna do
How you gonna get to me now?
Never understood, no you never could.
Never really knew me no how.
You kicked on me when I was down,
It's funny how things come around.
'Cause look at me now.

Hey, it's only money, and the trappings of fame.
But now all of a sudden, you remember my name.

You're doing your best
To convince me that it's only words.
But I'll never forget how you hurt me
And now that finally the tables have turned...

CHORUS

Look at me now, look at me now, look at me now.

(Never thought I could)
What'cha gonna say, what'cha gonna do?
How you gonna get to me now?
(Never thought I would)
Never understood, no you never could...
Never really knew me no how.

You thought I was beat to the ground
It's funny how things have turned out.
Everything's all turned around, just look at me now.

CHORUS

Look at me now.
