(Levi Oliver, Leif Madsen, Jeremy Kennedy)

[Verse 1]

Everyone is going to a higher place  
I guess your a little late  
but don't you leave, me in haste  
your chance will come again

[Verse 2]

You keep on lookin' to the stars  
for him to come back down  
you need to open those eyes and see  
that your the one who's meant for me

[ Verse 3]

It seems so much could go wrong

in the time that you say you need  
so desperately I try to solve  
I try, and I try

[Chorus]

I never meant to hurt no one  
I never knew him like you did  
Well he lived a life, a life of sin  
So turn to me and love again

[Verse 4]

I seen you just the other day  
Dancing in the candle light  
I thought I saw him by your side  
Reminiscent of a dream

[Chorus]
