(Levi Oliver, Jeremy Kennedy)

[Verse 1]

Don't look inside

And never hide

To be with you

I wish, I could

Take the time

To prevent the crime

Years have passed

Well I thought you would always

[Chorus]

You would be there when I felt all alone

No one has ever known what I've known

So comes the time when everyone must see

I am having trouble... finding me

[Verse 2]

So who is this

I'm speaking with

I hate you two

You don't exist

I think I'm blind

Cause the sun don't shine

Where I live

Well you thought I would always

[Chorus]

[Bridge / Lead]

[Chorus]
