Smashing skulls with my warhammer  
Slicing heads off with my sword  
The smell of flesh engulfs the sky  
Bodies burning through the night  
Delightful pain is what I like the most  
Ripping faces with my claws  
Spilling blood brings joy to my soul  
This madness I cannot control

Tears fall along with their heads  
Butchered and impaled  
Slaughtered victims of my victory  
The slaves of misery  
Splitting skulls with my battleaxe  
Piercing bodies with my spear  
Ending lives with my own hands  
Spreading fear through the lands  
Raping the souls of the one's I've killed  
Enslaving them forever more  
Destroying all who stand in my path  
To let them feel my immense wrath

Anger fills my soul  
Rage lives in my head  
Everyone will die  
No one's safe as I go berzerk

Savage and ruthless  
Harsh and heartless  
Sadistic and cruel  
Barbaric and violent  
Callous and monstrous  
Inhuman and pitiless  
Mean and merciless  
Cold and reckless  
As I go berzerk
