From the pits of hell
To bring the heavens down
The infernal warrior is spawned
To end the celestial reign
Hades newborn son
Will tear the skies apart
The angels cruel demise
The end of the spirits of light

The sword of fire, the shield of flames
His eyes ablaze
The burning axe, the flaming spear
The angels fear

Feeding from blood of the saints
Delivering them to the claws of pain
Ripping the wings of the holy ones
The demon called Hellknight shall rise
Panic in the skies
The general from hell will march
The abyss shall win this war
The headless angels fall
Tribulation will befall
The devil's kingdom reborn

The sword of fire, the shield of flames
His eyes ablaze
The burning axe, the flaming spear
The angels fear

Feeding from blood of the saints
Delivering them to the claws of pain
Ripping the wings of the holy ones
The demon called Hellknight shall rise
Panic in the skies
The general from hell will march
The abyss shall win this war
The headless angels fall
Tribulation will befall
The devil's kingdom reborn

The lord of all that's cruel

In torment he will rule
Over all the angelic fools
Victory is at hand
Heaven's within his grasp
And Lucifer now commands
