"Into The Bowels Of Hell"

Soulless flesh
Visions from the other side
Where darkness reigns
The place where all evil prevails

Darkness falls
Damnation through your sins
Darkness falls
And we all live in sin
Fallen child
Born the nameless son
Fallen child
Through flames you'll carry on
Darkness falls
The unbelievers pain
Darkness falls
Immortality in vain
Fallen child
For your sins you'll burn
Fallen child
Your prayers remain unheard

In the bowels of hell
The demons await
You shall meet your fate
In the bowels of hell
In the bowels of hell
The demons rule
We are waiting for you
In the bowels of hell

In hell
There's no need to confess
In hell
There's no need to be blessed
In hell
Where there's only shadows and dust
In hell
Where we worship the temple of dusk
