I close the book I've reread before
And I turn off the light by my bed
Since a sleepy morning is frustrating
I sleep quickly at night

During nights when I am sleeping
They are all very short
If I begin to fall asleep
It will probably be very long

An event from a faraway day dances in my heart
Any wish would come true on that day

Why don't we reminisce from the beginning
Of that precious dream and love we had
Of that one and only feeling we felt at that time
We're going to have a long night
We're going to have a long night

The path that continued that dream
I could have sworn that it was there
During my shameful journey
My dreams fled far away

My missed friends and that person I loved;
Any memory would go back and forth during that time

Why don't we reminisce just a little bit
Of that dream and love we left behind
Of that time's feelings we had from the beginning
We're going to have a long night
We're going to have a long night

My missed friends and that person I loved;
Any memory would go back and forth during that time
