[Verse 1] Cops is looking at me Even when I take a piss
Thinking I got rocks in my pocket Like I'm the alchemist
But that's not me not O Never served that yae yo Not
even proud of the fact I've been to jail Another Hispanic
male who turned to a stat Another number for the
government To hold my people back Hunger is like the
price of freedom For a smuggler Younger guys
capitalize on music And bring us under Ground I'm that
shit that civilizations hide And the discovery won't be
understood Till 2045 Spit on a page to create a dna
strand Scientist try to clone it to create a new society
plan See hope for the future If they succeed Because
the world today is full of money Power and greed I try
to explain over rugged terrain The mind within the
brain And the knowledge contained In this systematic
aristocratic Fake diplomatic illusionary crafted Balance
within the planet Amongst the people but not divided to
them Left to fend for themselves In a world reaching its
end Heard sermons on apocalypse Last days lunar
eclipse Scientific prophecies on when we'll cease to
exist But I'm going to keep writing rhymes As that day
approaches While the president gets drunk Off power
risking cirrhosis [Hook] Illegal business control the
justice System now we off the chain If you got no
dough then stay on bolo Cuz freedom is hard to obtain
This environment is parasitic Pigs with quotas for
tickets District attorney wanna mark us with digits
Misinformation is givin to us daily My paranoia state is
driving me crazy Whatchu think the CIA didn't have a
part to play Bringing the drug epidemic to the USA
They funding the prison industrial complex Shit is
worse than an airline receiving a bomb threat Be on the
look out for stake outs And cops who Plant evidence
and later arrest you See my mind's focus can't help but
protest Never turn the other cheek I've always notice
Tantas noches los pobre homeless Abandonado
enserado viviendo hopeless I always think of the
possibility That it might be me Begging for a dollar fifty
Holding a squeegee in one hand Hoping if you see me
that you really Give a damm Give me change and I
don't mean coins Life is a pain in the ass Worse than

hemorrhoids
