Life in trying times can be somewhat strange
Nothing I can do, nothing I can change
Love is nothing new can't accept
It but it's true
Just made a fool of myself,
Thinking that you want me too
Thinking that you want me too

When emotions run so high
They stay inside so deep it will only make me cry
Nowhere to turn to, no place to hide. yeah

I can't help myself falling in love
If only he felt the same I pray to the heaven above
Now I can only whisper your name
So tell me now, k what will I do if love is just a game
I can never be the same, I will never be the same

My tears, I'm leaving them behind
Oh, my pain I'm leaving them behind
Oh, my I'm leaving them behind
Turn away, I'm leaving you behind
