November oh, so soon  
Kick the blues way past June  
You are not alone, give to me the pain  
You own  
Christmas is back in town  
You and I let's fool around  
The letter's on its way, kiss me dear on  
Christmas day

December's not so blue, you love me I love you  
Like a dream come true, it's a start of something new

So near but yet so far  
Dreamers dream beneath the stars  
I waited for so long, the air grew cold,  
A funny song  
If you feel some pain  
Just fall in love with me again  
Gaze into the open sky  
Hold me close, don't ask me why

Christmas is back in town  
You and I let's fool around  
The letter's on its way, kiss me dear on Christmas day

December's not so blue, December's not so blue  
Not so blue
