I'm feeling all time low everytime I remember you  
Another day of sorrow  
All tied up in shady blue  
Ooh ooh

Is it too late or is it not  
Feel the pain of a broken heart  
Why does it always end this way  
There is something I'm longing to say

Feel my hands they're so cold  
Shaking, longing for you  
Feel my hands they're so cold  
All the time waiting for you

All the time I've waited for you  
All the time I've waited for you

All the time I've waited for you  
I always wanted something new
