[Music: L. Vogelaar, lyrics: G. Eikens]

Welcome in Battle School, where you'll be trained,  
No place for fools.  
Your talents will only find their use, to wipe the  
'buggers' out of this universe.  
To change the face of time, dare to face the future's  
curse.  
Human Strategy un-aware, but that was then and now  
is tomorrow.  
They'll be back more faster now, beyond what time can  
borrow.  
Don't fight for fun, don't fight for fame,  
Just play the war in Ender's name.  
Welcome in Ender's Game,  
Don't get insecure, as doubt leaves lethal trace.  
Feel you team arise, grow stronger pace by pace.  
Ender, lead us to survival of the Good.  
Come and lead the troops to Victory.  
Win this game in Ender's name
