Crystal Gayle & Gary Morris

You and me are too good to be true
A miracle in everything we do
When we touch, when we kiss
I know it don't get much better than this

There's no love like our love
Nothing compares to this feeling we share in our hearts
What we found is the best around
It's something that others only just dream of
There's no love like our love

I don't need a blanket to keep me warm at night
As long as I've got you to hold me tight
Baby I'm yours (baby I'm yours), you're mine (and
you're mine)
What we've got will stand the test of time

There's no love like our love
Nothing compares to this feeling we share in our hearts
What we found is the best around
It's something that others only just dream of
There's no love like our love

When we touch, when we kiss
I know it don't get much better than this

There's no love like our love
Nothing compares to this feeling we share in our hearts
What we found is the best around
It's something that others only just dream of

There's no love like our love
Nothing compares to the feeling we share in our hearts
