Crystal Gayle & Gary Morris

You laid your feelings on the line
I never stood a chance
We found the perfect love this time
When a little doubt turned us inside out

What if we fall in love
What if we can't get out
What if we're in too deep
Guess we both got lost
What if it doesn't last
What if the road gets rough
Only fools ask what if we fall in love

Life never gives us guarantees
Love doesn't always last
Why worry 'bout our destinies
I'm with you tonight, let's not question why

What if we fall in love
What if we can't get out
What if we're in too deep
Guess we both got lost
What if it doesn't last
What if the road gets rough
Only fools ask what if we fall in love

If you ever find yourself confused
If you ever think of leaving me
Just remember how much I love you
Love was never worry-free

What if we fall in love
What if we can't get out
What if we're in too deep
Guess we both got lost
What if it doesn't last
What if the road gets rough
Only fools ask what if we fall in love
