(Jimmie Helms - Bobby Osborne)

Color me lonely, color me blue.

When I lost your love today
All my skies turned gray
When you took your love away
Blues came home to stay.

Color me lonely, color me blue
Paint the picture that's true
Color me lonely, color me blue
Blue without you.

You took all the stars from my nights
Took all the sunshine from my sight
Took a man that once was free
And showed him what loneliness could be.

When I lost your love today
Everything went wrong
When you took your love away
All I have was gone.

Color me lonely, color me blue
Paint the picture that's true
Color me lonely, color me blue
Blue without you.

Blue without you...
