(Lester Flatt)

I'll never love another now that you've gone away
And left me here to grieve dear all alone
It seems I always lose my dear no matter how I try
I'll never love another until the day I die.

I'll never love another now that you've proved untrue
Without your loving darling what am I to do
I spend my life for you dear and now you've left me
blue
I'll never love another if I can't have you.

--- Instrumental ---

My castle now have tumbled that we have built for two
And all my dreams have vanished dear with you
I'll find no one to take your place so I'll now even try
I'll never love another until the day I die.

--- Instrumental ---

Now you don't know my heartaches that you caused me
to bear
Or you would never stole my love from me
I had to live my life alone and think of days gone by
I'll never love another until the day I die.

I'll never love another now that you've proved untrue
Without your loving darling what am I to do
I spend my life for you dear and now you've left me
blue
I'll never love another if I can't have you...
