(Bob Gallion)

When I fell in love with you not long ago
You said I was the only love that you've ever known
But someone else's stole the love and the key to your
heart
And I am left here all alone with the love pains in my
heart.

Love pains, love pains
Love pains would leave me crying in the night
Love pains, love pains
Love pains left with this broken heart.

--- Instrumental ---

But I know I'll never change no matter how I'll try
I'll keep right on loving you and always wonder why
Why would you desert me for somebody new
And leave me all alone with memories of you.

Love pains love pains
Love pains would leave me crying in the night
Love pains, love pains
Love pains left with this broken heart...
