(Richard D. Steadtler)

Once in life you meet someone who gives to you  
The reason for that life and what some love can do  
So now I'm armed for trouble times with all I need  
For I have you my favorite memory.

You gave me something time can never take from me  
A light that guides me when life's dark and I can't see  
When I'm cold depend to hold will comfort me  
'Cause you'll be there my favorite memory.

--- Instrumental ---

Your lips were sweet your arms were warm I tasted  
light  
You'll have my heart in all dreams I dream each night  
For something cause I've done dear now and I must  
sleep  
You'll always be my favorite memory.

So now don't you cry it's not goodbye it's just so long  
I'll take you with me where I'll travel from now on  
'Cause when I close my eyes at night and go to sleep  
You're lying there my favorite memory...
