(Charlie Louvin - Ira Louvin)

You're waltzing with me looking over my shoulder
That gleam in your eyes tells me I'm losing you
You're waltzing with me but your heart's with another
You'll have a new partner when the next waltz be here.

We came to the dance together
But I see that I'll be all alone when it ends
You're waltzing with me looking over my shoulder
You'll have a new partner when the next waltz be here.

--- Instrumental ---

We came to the dance together
But I see that I'll be all alone when it ends
You're waltzing with me looking over my shoulder
You'll have a new partner when the next waltz be here...
