(Paul Williams - Sam Humphrey)

I'm just one kiss away from loneliness.

I'm walking you home for the last time  
I hope before we get there that you will change your  
mind  
It hurts to know I've lost you I've loved you for so long  
What's happened to us darling what brought this  
parting on.

I'm just one kiss away from loneliness  
Hold me tight and love me is my last request  
Broken heart we'll have to face it right to hold no regret  
I'm just one kiss away from loneliness.

--- Instrumental ---

Now we'll soon be standing at your door  
Want you reconsider tell me now before I'll go  
For when I'll say goodbye to you I'll leave I won't be  
back  
Loneliness will be my future memories will be my past.

I'm just one kiss away from loneliness  
Hold me tight and love me is my last request  
Broken heart we'll have to face it right to hold no regret  
I'm just one kiss away from loneliness...
