(Bob Gallion)

I'll never love another it's true
Other lips don't kiss me like you do
Other arms don't thrill me like you do
Just one more chance to be with you.

Let's be sweethearts again
Just the way we used to be
Let's be sweethearts again
Darling, just you and me.

--- Instrumental ---

Just one more chance with you again
My tortured heart heart knows how it sin
One more chance and I'll be true
Just one more chance with you.

Let's be sweethearts again
Just the way we used to be
Let's be sweethearts again
Darling, just you and me...
