(Bobby Osborne - Pete Goble)

We came to big city from our little country town
And every step she takes with you is down
But you're as cold and heartless as your chilling winds
that blow
Before you freeze her heart please let go.

Windy City you're haunting my baby
With your bright lights and your avenues so wild
Windy City turn loose of my baby
If you don't give her back I lose my mind.

--- Instrumental ---

At night I walk your sidewalks and look in every bar
I love her even though she's gone too far
Your swinging doors stay open to keep her from my
side
And I'm on your lonely streets again tonight.

Windy City you're haunting my baby
With your bright lights and your avenues so wild
Windy City turn loose of my baby
If you don't give her back I lose my mind...
