If I could have a single wish, I'd only wish to never miss  
it, when you wake up and smile.

It makes me happy when you steal a little kiss before  
you wake me up and show me the hour

And when you're

Creeping out of bed I came to see what you were doing  
when I left you last night

And then I

Give you a little kiss before I pick you up and take you  
to the pool for a while

I can't tell you

Can't explain it

But it's true

Whoever said it was over

'Cause

My heart fell over

Over you it's true

Every time I think about you I think about your beautiful  
smile

And when I

Look into your eyes all I can see is my heart just going  
wild

And

Every time I hear your name my knees become like  
pieces of paper

My heart starts

Racing like a motor whenever I see you coming around

I can't tell you

Can't explain it

But it's true

Whoever said we were over

'Cause

Our love went over

Over everything it's true

My life is like a bowl of cherries not so very ordinary  
powered with love

Overflowing

Like the river running around until it all falls out

If  
I could take your breath away from every simple little  
song I wrote for you  
For you  
I'd write it all and more in love with me you'd fall

I can't tell you  
Can't explain it  
But it's true  
That's what I say  
That's just my way  
Of saying I love you
