It's Real  
Crystal Lewis

[music]

I've waited for so long  
Thinking the perfect love would happen by  
Dreaming of a picture I had painted  
Wanted so much for this love to be mine

But all along, I felt something deep inside  
Saying, "There is more than fantasy,"  
Suddenly, I realized,

It's real  
I finally found a love that's real  
It's a fact not a fantasy  
He's shown me that he cares for me  
It's real  
I never knew how real love could make me feel  
If real love's just a dream to you  
He can make your dreams come true  
It's real

I wanted to feel a love so true  
Thinking if I waited long enough  
I'd feel it through and through  
But once I realized I could be complete and free,  
I let him change my world;  
He helped me believe in me

I needed someone to take my hurt away  
Jesus cared enough to show me  
New love everyday

It's real  
I finally found a love that's real  
It's a fact not a fantasy  
He's shown me that he cares for me  
It's real  
I never knew how real love could make me feel, mmm...

If real love's just a dream to you  
He can make your dreams come true  
It's real

(Oh, it's real)  
I know it because he's shown me real love  
(It's real)  
I don't hurt anymore  
(Oh, it's real)  
'Cause he's shown me real love, yeah  
(Oh, it's real)

It's real  
I finally found a love that's real  
It's a fact not a fantasy  
He's shown me that he cares for me  
It's real  
I never knew how real love could make me feel, oh...  
If real love's just a dream to you  
He can make your dreams come true  
It's real
