What If I told you it was All a Dream
We just Made it up so we could Breath
An interesting space this place I'm in
So what if we make it And we don't believe

If I get up to heaven will they have me?
OR will I be standing in the Alternate Line
A passerby to eternal Bliss
Who won't get far when he's not on the list

Just let go and fly away with me
Into the spaces that we cannot see
If I were a light Would you follow me?
Or is it in Heaven that we don't believe

If I get up to heaven will they have me?
OR will I be standing in the Alternate Line
A passerby to eternal Bliss
Who won't get far when he's not on the list

Is it All a Dream
Is it Everything
Is it everything I dream
