What would I do
If one day I find
Your tender lips
Were no longer mine

If you should leave me
If you should go
Darling, there's only
One thing I know
I would panic

(Panic) panic
Like when a rich man
Ooh, is growing old
Find someone to hold his gold
I would panic (panic)

No one can love
And thrill me like you
And make me do
The things that I do

If you should ever send me away
Where would I go
And where would I stay
I would panic

(Panic) panic
Just like a bird that
Flew way off it's course
I would feel so awfully lost
I would panic (panic)

So don't be joking about
Leaving me (leaving me)
That ain't no kind of way
To be teasing me (tease)
(Tease, tease, tease, tease)

Come over here
Please come over here
Just let me run my

Hands through your hair

Promise me, darling
Promise tonight
You'll never wander
Out of my sight
I would panic

(Panic) panic
Like when a man
Who's drowning in the sea
Goes down for the count of three
I would panic (panic)

So don't be joking about
Leaving me (leaving me)
That ain't no kind of way
To be teasing me (tease)
(Tease, tease, tease, tease)

Come over here
Please come over here
Just let me run my
Hands through your hair

Promise me, darling
Promise tonight
You'll never wander
Out of my sight
I would panic

(Panic) panic
Like when a man
Who's drowning in the sea
Goes down for the count of three
I would panic (panic)

Panic, like when a man
Who's drowning in the sea
Goes down for the count of three
I would panic (panic)

Panic, like when a man
Who's drowning in the sea...
