That's your mistake
You had to run around
That's your mistake
You played me for a clown

I found somebody now
Sweet as can be
And they don't do that me

That's your mistake
To mistreat me so
That's your mistake
To ever let me go

I found somebody now
Sweet as can be
And they don't do that me

You spent my money
Didn't want my love
It wasn't me
You were thinking of

You played your hand
And you had your fun
Now if you're in the cold
And you have no one

That's your mistake
To think I was your fool
That's your mistake
To rate this lover's rule

I found somebody now
Sweet as can be
And they don't do that me

No, they don't do that me
No, they won't do that to me
