I
I sit by the phone
Waiting for someone to call me
but I can't hear
I'm just a little bit
High
I wanted to run
But if there's somewhere to go, yeah,
I'll be there
I just don't know because
I know
I just can't let it go
But if I could let you know
That your leaving me alone
And I know
I just can't let it go
But if I could let you know
That would be right
I just don't know
(I)

I sit all alone
Surrounded by the man inside the speaker
Just need some sympathy
And then time
(time)
Is taking it's toll
I'm afraid I'll sink deeper and deeper
I'm sick of these tendancies and then

I know
I just can't make it good
But if I could show you the world
And the way I think that it should turn
I know
I just can't make it good
But if I could show you the world
And the way, the way I think that it should

I feel with my soul
Feel with my heart and intuition

Don't need them stuck in you
And then why
(why)
Why won't you come?
Why won't you believe in what I'm missing?
I'm missing, I'm missing

I know
I just can't make it good
But if I could show you the world
And the way I think that it should turn

I know
I just can't make it good
But if I could show you the world
And the way I think that it think it should

I know
I just can't make it good
But if I could show you the world
And the way I think that it should turn

I know
I just can't make it good
But if I could show you the world
And the way, the way I thin
