Tired and jaded
This road is unsafe
Have you been there?
Have you been there?

But time is on your side
You're too stubborn to wait
Are you listening?
Are you listening?

They want you to know
They want you to stay
Oh it's too much to take
So you're running, running away

It's more than I can bear
It's more than I can bear

Car crash, ending your day
At the side of the road
Are you trembling?
Are you trembling?

They'll wake up today
To the papers that say
"Oh well" it was too hard to tell
He was swerving, they were swerving
Much too late

It's more than I can bear
It's more than I can bear

It's more than I can bear
It's more, it's more, it's more

It's more than I can bear
It's more than I can bear

More, more, more
