Take these plastic people
Read their lips, now let it linger
Is there anything
That makes them sound, sincere?

'Come one tightly hold your hand
Take a deep breath, give them the finger
Are you worried
That your thoughts are not quite clear?

Twitch, overlooked, unfit appearance
But I remember falling
But I remember marching
Like a one man army
Through the blaze

I remember coughing
But I believe in something
But I don't wanna remember falling
For your lies

Unbutton your clothes
Undress your soul
Show them your vigor
Are these inhibitions easiest to fear?

And c'mon take this gasoline tin
Head up high, walk like a winner
Let the bare feet be the last sound

That they hear

Twitch, overlooked, unfit appearance
But I remember falling
Well, I remember marching
Like a one man army
Through the blaze

I remember coughing
But I believe in something
But I don't wanna remember falling
For your lies

Falling
Well, I remember falling
Well, I remember marching
Like a one man army
Through the blaze

I remember coughing
But I believe in something
But I don't wanna remember falling
But I remember crawling
Through the wayside, falling

Well, I remember marching
But I don't wanna remember falling
But I don't wanna remember falling
For your lies
