1949
George Orwell portrays
A chilling world in which computers
Are used by large beaucracies to
Monitor and enslave the population, in his book 1984.

The year is 1976
Griswald Computer Products introduces the
Griswald Reading Machine
The first *something* reading machine for the blind.

1997
someone beats Gary *something*,
The world chess champion in a regulation tournament.

(Can't really make out some of the words, forgive
meh.)
