Tell me how, baby  
Could it open my eyes for the night

It took me by surprise  
Oh what you said to me:

Love me do  
Whatever you want back darlin' won't be good  
That is why I woke and cried out

Rocksteady can't break my world  
Nobody's ever gonna think twice  
Oh how I, how I often try  
Rocksteady can't make that change  
Nobody's gonna ever rearrange (yeah)  
As time moves slippin' fast  
Love just won't become, you

Now my mind baby  
My mind is free  
Oh you played it hard lady  
So hard and deep  
Oh when you said to me..

Love me do  
Whatever you want back darlin' won't be good  
That is why I woke and cried out

Rocksteady can't break my world  
Nobody's ever gonna think twice  
Oh how I, how I often try  
Rocksteady can't make that change  
Nobody's gonna ever rearrange (yeah)  
As time moves slippin' fast  
Love just won't become, you (3x)
