Last time I talked to you  
You were lonely and out of place  
You were looking down on me  
Lost out in space  
We laid underneath the stars  
Strung out and feeling brave  
I watched the red orange glow  
I watched you float away  
Down here in the atmosphere  
Garbage and city lights  
You've gone to save your tired soul  
You've gone to save our lives  
I turned on the radio  
To find you on satellite  
IÂ'm waiting for this sky to fall  
IÂ'm waiting for a sign  
All we are  
Is all so far

You're falling back to me  
You're a star that I can see  
I know you're out there  
Somewhere out there  
You're falling out of reach  
Defying gravity  
I know you're out there  
Somewhere out there  
Hope you remember me  
When you're home sick  
and need a change  
I miss your purple hair  
I miss the way you taste  
I know you'll come back someday

On a bed of nails IÂ'll wait  
IÂ'm praying that you donÂ't burn out  
Or fade away  
All we are  
Is all so far

You're falling back to me  
You're a star that I can see

I know you're out there  
Somewhere out there  
You're falling out of reach  
Defying gravity  
I know you're out there  
Somewhere out there  
You're falling back to me  
You're a star that I can see  
I know you're out there  
You're falling out of reach  
Defying gravity  
I know you're out there  
Somewhere out there  
You're falling back to me  
You're a star that I can see  
I know you're out there  
Somewhere out there  
You're falling out of reach  
Defying gravity  
I know you're out there  
Somewhere out there  
You're falling back to me  
I know  
I know  
You're falling out of reach  
I know
