Last time I talked to you
You were lonely and out of place
You were looking down on me
Lost out in space

we laid underneath the stars
Strung out and feeling brave
I Watched the red orange glow
I watched you float away

Down here in the atmosphere
Garbage and city lights
you've gone to save your tired soul
You've gone to save our lives
I Turned on the radio to
Find you on satellite
I'm waiting for the sky to fall
I'm waiting for a sign

And all we are
Is all so far

You're falling back to me
The star that I can see
I know you're out there somewhere out there
You're falling out of reach
Defying gravity
I know you're out there
Somewhere out there

Hope you remember me
When you're homesick and need a change
I miss your purple hair
I miss the way you taste
I know you'll come back some day
On a bed of nails I wait
I'm praying that you don't burn out
Or fade away

And all we are
Is all so far

You're falling back to me
The star that I can see
I know you're out there somewhere out there
You're falling out of reach
Defying gravity
I know you're out there
Somewhere out there

You're falling back to me
The star that I can see
I know you're out there oooh

You're falling out of reach
Defying gravity
I know you're out there
Somewhere out there

You're falling back to me
The star that I can see
I know you're out there somewhere out there
You're falling out of reach
Defying gravity
I know you're out there
Somewhere out there

You're falling back to me
I know,
