Last time i talked to you,youwere lonely and out of
place
you were lookin down on me lost out in space
we laid underneath the stars strung out and feeling
brave
I watched the redorange glow
I watched you float away
Down here in the atmosphere the garbage and city
lights
you've gone to save your tired soul
you've gone to save our lives
i turned on the radio to find you on satellite
i'm waiting for the sky to fall i'm waiting for a sign
And all we are is all so far
you're falling back to me the star that i can see yeah
i know you're out there somewhere out there
you're fallin out of reach defying gravity yeah
i know you're out there somewhere out there

Hope you remember me when you're homesick and
need a change
I miss you're purple hair
i miss the way you taste
i know you'll come back someday on a bed of nails i'll
wait
i'm praying that you don't burn out or fade away
and all we are is all so far
you're fallin back to me
the star that i can see
i know you're out there somewhere out there
you're fallin out of reach defying gravity yeah
i know you're out there somewhere out there

you're fallin back to me the star that i can see
i know your out there oh
you'rer fallin out of reach defying gravity
i know you're out there somewhere out there

you're fallin back to me
the star that i can see
i know you're out there somewhere out there

you're fallin out of reach defying gravity
i know you're out there somewhere out there

you're fallin back to me well i know
well i know
you're fallin out of reach I know
