

Our Lady Peace "Under Zenith"

Maybe they'll come back again
Maybe they're all gone
One day you'll find me sending
Their message strong

Under your feet the city falls
Down so far the ground is sky
We're under zenith again
It's healthy if not for long

Leave a little room for us to breathe

Much more than seven days
And you've slipped to deep
Much stronger than sympathy
Let your best friend pull back that leash

Sitting by a frozen man
Someone somewhere has to cry
We're under zenith again
Let the cycle run we won't die

Leave a little room for us to breathe

I love how you let me fall
Under but not to far
I love how you let me fall
Only now I see where we are
Hold me
