

Our Last Crusade "Fire In The Sky"

Visit "[Fire In The Sky](#)" on MotoLyrics.com

The sky is burning
Our world is on fire
All is lost
Witness the implosion from within

I sit here on this aged bench
Watching my everything collapse
Every image in my eyes
I know will be the last
No future, just past

Every bit of dirt
Every grain of sand
Forgotten

All the clouds
On this earth

Are lost to the fire
The fire in the sky
In the sky

I stay seated here, forever
Acceptance has finally arrived
The world is now a flame
That will never end
No future, just past

The sky is burning
Our world is on fire
All is lost
Witness the implosion from within
