

Our Last Crusade

The road was long
We travelled for months
Always by your side
Never faltering
We had our mission
No rest for the weak

We bled with you, fought with you, we would have died
with you
We bled with you, fought with you, we would have died
with you

You turned your back on us
You left us behind
As your ashes fall through our fingers
We will show you
Everything you could have had

Weep while you will
This kingdom is ours
Weep while you will
This kingdom is ours

All we wanted was the truth
Not the lies you hid behind
Every poor reason a reminder
How you let us down

Your greed took hold of you
For that you will always pay
For your selfish mistakes
And you think you are happy

We thought we were lost
With sunken hearts we turned back
To the home we forgot
On the path was a man
His beard full
With a smile on his face
Who was this man?
This man was our savior

We bled with you, fought with you, we would have died
with you
We bled with you, fought with you, we would have died
with you

You turned your back on us
You left us behind
As your ashes fall through our fingers
We will show you
Everything you could have had

Weep while you will
This kingdom is ours
Weep while you will
This kingdom is ours

We now stand on our own
Stronger now than ever
We continue our crusade

This kingdom is ours
