I stare
At the notches in the wall
Trying to put together the pieces
Predicting the outcome
Before the last piece is placed

Indifference slowly tears me apart
Bringing all my worst fears back to life
My world slowly collapses collapses
I beg you for release

The circle of return
That keeps me from escape
I can see it there
No different then before
I know my mistakes
Cannot be changed
I know my mistakes
Cannot be changed
Indifference slowly tears me apart
Bringing all my worst fears back to life
My world slowly collapses collapses
I beg you for release

I am always the same
And always lost
Trapped
Trapped
Trapped
In the confines of my mind

A mistake made time and time again
It is always the same
I am trapped inside
The confines

Trapped (inside)
Trapped (the confines)
Trapped (of my mind)
