I paint my world in black, and dress the people in white.
The world is dull and harsh, and the people are pale
and blanc

Oh! Plastic surgery life and sculpture your body into
something your not!

Be this, be that, do this, do that.

It's no longer ok to be who you are.

Oh! Cuz then you will be, treated as a freaa-eah-eah-
eaaaaaaaak.

It's time to break free from this, ZOMBIE NATION.

So put your foot down and raise your hand high!

Lets break us down, and rebuild ourselves something
perfect.

Lets break us down, and rebuild ourselves something
perfect.

Lets break us down, rebuild ourselves

Lets break us down, rebuild ourselves OH!
