How long has it been since then?
We're even now and its been that way
How long has it been since then?

She's leaving now but she'll be back tonight
How long has it been since then?
You're see-through now but you've been that way
How long has it been since then?

I threw half away
Lay low
You're gonna be okay
Lay low

I threw half away
Lay low
You're gonna be okay
Lay low
Lay low
