I've been walking in my sleep  
To places I have never seen before  
I've been walking in my sleep  
A hundred miles from where I first closed my eyes

I hope I wake before the dream is through  
I hope the walk led me straight to you  
Though my dream was vague but oh so real  
I'm searching through my mind to find how I feel

The ticking of this clock is growing old  
But I'll wait it out just to hold  
You while you're fast asleep  
Softly talking me your dreams

I hope I wake before the dream is through  
I hope the walk led me straight to you  
Though my dream was vague but oh so real  
I'm searching through my mind to find how I feel

I've BEEN WALKING IN MY SLEEP!
