I guess time doesn't matter
When you're with someone who talks the night away
Everything will be good
Once the nighttime rolls around
Because tonight darling it's just you and me

You're the drug
That takes over my thoughts
As I am lying down in bed
No matter how many times I try
I can't seem to get you out of my head
And that's just fine with me

I can sit for what seems like forever
And just watch you dance around and sing with me
Everything will be good
Once the nighttime rolls around
Because tonight darling it's just you and me

You're the drug
That takes over my thoughts
As I am lying down in bed
No matter how many times I try
I can't seem to get you out of my head
And that's just fine with me

I'm stuck inside my head
With the thought of you
Help get me out, save me

YOU'RE THE DRUG!
