God knows how I adore life
When the wind turns on the shores lies another day
I cannot ask for more

When the time bell blows my heart
And I have scored a better day
Well nobody made this war of mine

And the moments that I enjoy
A place of love and mystery
I'll be there anytime

Oh mysteries of love
Where war is no more
I'll be there anytime

When the time bell blows my heart
And I have scored a better day
Well nobody made this war of mine

And the moments that I enjoy
A place of love and mystery
I'll be there anytime

Mysteries of love
Where war is no more
I'll be there anytime
