Inside your skin - there's a girl I want to know
Inside your skin - you could let my feelings grow
Where do I begin - to tell you that I want you so

(chorus)

Doesn't matter what color you are
Doesn't matter if you're so far away

Inside your arms - I would always feel secure
Inside your arms - I would always be so sure
Tearing us apart - would only make me want you more

(chorus)

Think about a world - free of pain
Think about a world - where nothing changed
Always the same

Inside your heart - no one's ever been before
Inside your heart - someone who remained so pure
Knowing where to stop or to start
Telling you I want you more

(chorus)
