Cherry where you been
since 9 this morning?
Give me all the names
who saw you there
But if they can't remember
I know that you'll surrender
another nervous alibi

Cherry what's this game
you think you're playing?
Don't you know I hate
those clothes you wear

For I've seen men undress you
and with their eyes caress you
another nervous alibi

Cherry name the day
and I'll be waiting
Give me just one chance
to show I care
I know if we're together
it can go on forever
another nervous alibi
