Age ain't nuthin' but a number  
Age ain't nuthin' but a number  
Age ain't nuthin' but a number  
Age ain't nuthin' but a number

Pretty pink, baby blue  
Why don't you teach me something new?  
We're all just babies in my view  
So crawl baby  
Crawl baby

Pretty pink, baby blue  
Why don't you teach me something new?  
We're all just babies in my view  
So crawl baby  
Crawl baby

Miss Lady  
You could have been born a little later but I don't care  
So what if your head sports a couple of gray hairs  
Same here and actually I think that's funky  
And it could have helped it that way

Miss Lady  
It looks to me like you need a little juice in your life  
Call me when that big ole house gets lonelyfied  
And I'll teleport from here to there  
You show me how it's supposed to be done  
I'll make sure you have young fun

Pretty pink, baby blue  
Why don't you teach me something new?  
We're all just babies in my view  
So crawl baby  
Crawl baby

Pretty pink, baby blue  
Why don't you teach me something new?  
We're all just babies in my view  
So crawl baby  
Crawl baby

You're sophisticated  
Just me and Miss Lady  
You've got me talkin' like a baby  
You make me talk baby, talk

You're sophisticated  
You make me talk baby talk  
Just me and Miss Lady  
She makes me talk baby talk  
Got me talkin' like a baby

Like ga ga and goo goo  
Oh mamma

You're sophisticated  
Make me talk baby talk  
Just me and Miss Lady  
You're so experienced  
Got me talkin' like a baby

Teach me somethin new  
Teach me somethin new

You're sophisticated  
Just me and Miss Lady  
You got me talkin' like a baby

You're sophisticated  
Just me and Miss Lady  
You got me talkin' like a baby
