**(feat. George Clinton)**

*[Intro: Andre Benjamin and George Clinton (singing)]*

Everybody's got opinions  
on the way you're living  
But see they can't fill your shoes  
Life is made of half illusion (illusion)  
Forty percent confusion (confusion)  
Whatever's left I'm using to keep myself from losing,  
yea  
You don't know what I've been through (oooh)  
Hell I might go through you (ghetto boy that, won't eat,  
tonight)  
Uh-oh, oh no-oahohh (that little boy just wanna eat  
tonight)  
Hey hey (he scuffles with her booty and her face) hey  
hey  
And mm-mmmmmm (mom I'm seekin that sir tea and  
some soup yea)  
All in all it's all in my head

*[Verse One: Big Boi]*

You know it's that high guy, from East P.I.  
Spittin the realness of reality, you mad at me  
boi how you gonna handle me?  
You want me to lolligag and talk that bullshit?  
I refuse to play so I'm gon' speak that Southern good  
shit  
That harder than yo' hood shit, lil' shit  
that make y'all niggaz think about the trigger  
before you pull it, on liquor stores and banks  
Them folks got more than enough bullets to put that  
ass  
off in the slang, don't claim no gang, we the niggaz  
that did that "Ain't No Thang But a Chicken Wang"  
But still though, how you gonna play a nigga like dildo  
We OutKast til it's over, barbeque and never mildo  
For real bro

"In tonight's news, 20th century technology:

has the computer age, scientists, and doctors gone too far?

Einstein or Frankenstein?

Dr. Scholl's, or Dr. Jekyll and Mr. Hyde?

Are we digging into new ground,  
or digging our own graves? Story at 11"

*[Verse Two: George Clinton]*

Valley girls are horny tonight (synthesizer)

Fuzzy logic, their pubic virginity (synthesizer)

Ooooh ooh ooh .. (synthesizer)

Ooooh ooh ooh .. (synthesizer)

Conceived under the influence of toxic wasted doctors

Computer buggin debuggin device-a and vice versa  
and various viruses

Performing with laser light precision and verbal incision

For a linguistic ballistic lobotomy

Mind-fuckin you, a psycho-sodomy

of the medula oblongata

Accept your mind down your spine and out your behind

Fuck you

*[Verse Three: Andre Benjamin]*

Synthesizer, microwave me

Give me a drug so I can make seven babies

Pump my breasts up, can you suck the fat up

Please make my life appear

like ain't no such thing as bad luck

My, nose ain't right

Like I need a new one

Just take your pick, a yellow red

A black or a blue one

Virtual reality, virtual, BULLSHIT

Synthesizer preachers can reach you

up in the pulpit

Who a bitch?

Give me my gat so I can smoke this nigga

Tell his mamma not to cry

because they can clone him quicker

than it took his daddy to make him

Niggaz bitin verbatim

Thought provokin records radio never played dem

Instant, quick grits, new, improved

Hurry hurry, rush rush, world on the move

Marijuana illegal but ciggarettes cool

I might LOOK kinda funny but I ain't no fool

Now if you wanna synthesize I emp-athize

Now if you wanna synthesize I emp-athize  
But if you synthesize I will understand  
your synthesizer man

*[Verse Four: George Clinton]*

Ghetto boy horny tonight  
SCSI with a booty in a cage  
Problem sinkin down and stretchin out  
so sleepy, playing safe in cyberspace  
(synthesizer)  
Cybersexy Wendy (synthesizer)  
Web walkin in the nude  
Digital good time, digital good time  
Said she'd lapdance on your laptop  
while your laptop's in your lap  
Digital good time, digital good time  
Cybersexy Wendy  
Web walkin in the nude  
Digital good time, digital good time  
Said she'd tapdance on your laptop  
while your laptop's in your lap  
Digital good time, digital good time  
Digital good time, digital good time  
Cybersexy Wendy  
Web walkin in the nude  
Digital good time, digital good time  
Digital good time, digital good time  
Fuzzy logic, it's groovy..
