Long before  
I breathed the air that smelt of trees  
Long before  
I could see a sky above me  
I've been trapped there so long  
I don't recall the colour of the sea  
I have not a companion  
But the drops that are fallin' all over me  
Since I was left down there  
I want to know the one  
Who keeps the key of my chains  
Since I was left down there  
I haven't seen a ray of sun  
Breaking through my cage  
Oooh oooh please, set me free  
Oooh oooh please, set me free  
I don't mind who will take care of me  
All I want is to break free  
Runnin' away  
I don't know the place where I will live  
But I want just to feel free  
Be free again  
Oooh oooh please, set me free  
Oooh oooh please, set me free  
Oooh oooh please, set me free
