Nobody ever told me
how so completely
out of control we
can make our lives
I'm just beginning;
I was winning
when I faced you
at the starting line

Now I'm falling back again.
I'm down;
I should be running forward now.
I'm spinning farther and farther and farther out.

Though I never put out
you always gave back,
I'm gonna give back what you gave to me,
I was a promise
now I'm broken cause you took me for everything

Now I'm falling back again.
I'm down;
I should be running forward now.
I'm spinning farther and farther and farther, out of
control.

But nothing ever changes how,
not the way I feel right now;
I feel tired,
of felling tired,
heaven help me,
tell me why.

Now I'm falling back again.
I'm down;
I should be running forward now.
I'm spinning farther and farther and farther, And
farther out of control.
I'm spinning out of control,
I'm spinning out of control
